Tickhill Urban District Council.

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

For 1942

TO THE CHAIRMAN AND MEMBERS OF THE TICKHILL URBAN DISTRICT COUNCIL.

GENTLEMEN,

I have the honour to present my Fifth Annual Report on the Sanitary Circumstances, Sanitary Administration, and Vital Statistics of the Urban District of Tickhill for the year ended December 31st, 1942. This Report is prepared in response to the Circular Letter of the Minister of Health, number 2773 dated March 10th, 1943.

The Report is divided into Six Sections as follows:-

- A. Statistics and Social Conditions of the Area.
- B. General Provision of Health Services for the Area.
- C. Sanitary Circumstances of the Area.
- D. Housing.
- E. Inspection and Supervision of Food.
- F. Prevalence of, and Control over, Infectious and other Diseases.

SECTION A

STATISTICS AND SOCIAL CONDITIONS OF THE DISTRICT.

Area of the district, 5,580 acres—six of which	are water.
Population (Census, 1921)	2,084
Population (Census, April 26-27th, 1931)	2,297
(Males 1,180; females 1,117).	•
Population estimated mid-year 1942	
(Register-General)	2,302
Population mid-year 1941	2,258

Population since 1932 according to Census:—

Year	Population
1932	2305
1933	2313
1934	2316
1935	2303
1936	2290
1937	2306
1938	2303
1939	2322
1940	2258
1941	2302

and the control of th	
Number of inhabited houses in 1921	500
Total number of houses in 1921	518
Total number of houses in 1942—all	
inhabited (rate books)	671
Density of population, 1921 4.21 persons	per house
.37 persons p	er acre
,, ,, 1942 3.43 persons	per house
.41 persons p	er acre
Elevation above sea level maximum 225	feet
minimum 25	feet
At Church Bench mark 60.0	feet

Drainage: River Trent, via the following district waterways:—

- 1. Paper Mill Dyke from the west.
- 2. River Torne or Goole Dyke from the south-east.
- 3. Dadsley Wells stream from the north.

Rates: Gross product of 1d. rate ... £47 19s. 4d. Net ,, ,, ,, ... £45 18s. 0d.

•		NE'	TT ANNUAL	RATEABLE
Ordinary Assessments				£9,785
Industrial Assessments			£6,595	£1,648
Railway Assessments	• • •		£428	£79

Occupation of the inhabitants: chiefly agriculture. Some residents work at the neighbouring collieries.

SECTION B

CENERAL PROVISION OF HEALTH SERVICES IN THE URBAN DISTRICT.

1. (i) Public Health Officers:-

Medical Officer of Health (part time): H. M. BROWN, M.B., B.S., Tickhill.

Sanitary Inspector (part time):

J. HASLAM, M.I.Mun.E., Worksop.

Meat Inspector (part time):

T. BOWETT, M.R.C. V.S., Worksop.

District Medical Officer under Poor Law Acts: H. M. BROWN, M.B., B.S.

Public Vaccinator:

H. M. BROWN, M.B., B.S.

District Nurse:

E. HAWKSWORTH, C.M.B.

(ii) (a) Laboratory Facilities.

The examination of pathological specimens is carried out at the County Council laboratories at Wakefield. The examination of water and foodstuffs is carried out by the County Analyst at Bradford.

(b) Ambulance Facilities.

- 1. Privately owned:
 - (a) G. E. Davey, Maltby.
 - (b) Edenfield, Doncaster.
 - (c) Hather's Garage, Doncaster.
- 2. Doncaster Police.
- 3. Infectious Diseases:
 Conisborough Hospital.

(c) Nursing in the Home.

(a) General.

The Tickhill District Nursing Association, which is affiliated to the Queen's Institute of District Nursing and the West Riding County Nursing Association, provides for and supervises home nursing in the district. A trained nurse with the C.M.B. qualification is appointed to perform the duties. She resides in the district.

(b) Infectious Diseases.

No provision is made for nursing infectious cases in the home. They are usually sent to the Isolation Hospital.

(d) Clinics and Ante-Natal Centres.

None exist in the Urban District.

The Tuberculosis Dispensary at Merton House, Christ Church Road, Doncaster, is used by patients in this district. The hours are as follows:—

Mondays ... 2 p.m. and 6 p.m.

(e) Hospitals:—

Infectious Diseases. Situate at Conisborough, with accommodation for 85 patients. Distance seven miles. Erected 1901. Four Blocks: 18 wards.

Small Pox. Accommodation for 28 patients at Drake Head Lane, Conisborough. Built 1899. Extended 1927.

The above hospitals are managed by the Doncaster and Mexborough Joint Hospital Board with representatives from Doncaster R.D.C., Mexborough U.D.C., Thurnscoe U.D.C., Bentley-with-Arksey U.D.C., Adwick-le-Street U.D.C., and Conisborough U.D.C.

The arrangements made in 1905 for admission of patients to the above hospital from Tickhill hold good, and are adequate for the district

Ceneral, Surgical, and Medical:

Worksop Victoria Hospital	• • •	158 beds
Doncaster Royal Infirmary	• • •	184 beds
Rotherham Hospital	• • •	120 beds
Sheffield Royal Hospital		320 beds
Sheffield Royal Infirmary		500 beds

Children. The nearest special hospital is the Children's Hospital, Western Bank, Sheffield, which is 18 miles away. Accommodation, 50 beds. Most cases are sent to the above general hospitals.

Maternity:

Jessop Hospital, Sheffield, 145 beds, 45 cots

Normal Cases ... Lindrick Park

Maternity Home

Abnormal Cases Listerdale Maternity

Home

Acute Emergency ... Doncaster Royal

Infirmary

Abiel Nursing Home

Septic Cases ... Doncaster Borough

Isolation Hospital

These subsections, which deal with administrations of The Local Government Act (Public Assistance), 1929, Maternity and Child Welfare Services, Infant Life Protection Act, 1908, Young Persons Act, 1932, and Nursing Homes Registration Act, 1927, etc., do not apply to this district.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA.

1. (i) Water.

The following table shows the progress made in the last ten years as regards new connections made to the mains of the Doncaster and Tickhill Joint Water Board:—

	1933	1934	1935	1936	1937	1938	1939	1940	1941	1942
								,		
Private Houses	251	305	382	437	487	529	559	563	568	571
Public Houses	6	6	6	8	8	8	8	8	8	8
Library	1	1	1	1	1	1	1	1	2	2
Schools	2	2	2	2	2	2	2	3	3	3
Farms	6	6	9	6	7	7	7	7	7	7
Lock-up Shops	4	4	5	4	4	4	4	4	. 4	4
Other	1	1	2	6	6	8	8	8	8	8
							 	-		
Totals	271	325	407	464	515	559	589	594	600	603

(ii) Drainage and Sewerage.

The district is satisfactorily sewered, except in Lindrick Lane, which is too low to be drained into the existing sewer in Westgate.

The sewage works are modern, and provision has been made for a large increase in population.

2. Rivers and Streams.

The waterways are kept clear by the Trent Drainage Board, and drains leading into the streams are connected to the sewers where possible.

3.	(i) Closet Accommodation.	1942	1941	1940
	Pail Closets	8	8	9
	Privies	80	82	84
	Water Closets	574	572	570
	Hand-flushed W.C.'s	-		

(ii) Public Cleansing.

- (a) Collection of House Refuse.—This is done by private contract by one party, who should, according to Bye-Law 2 (1893), remove house refuse from any premises once at least in every month.
- (b) Collection of Refuse from Earth Closets and Privies.—This is also done by private contract by the same party as in item (a).
- (c) Disposal of Dry House Refuse.—This is put on to a tip, the tins, glass, etc., are separated and collected for salvage.
- (d) The Disposal of Refuse from Earth Closets and Privies.—The private contractor removes this to agricultural land, which should be ploughed immediately afterwards.
- (e) Cleansing of Cesspools is done by the owners, and the contents are disposed of on the owners' land.

(iii) Sanitary Inspection of the Area.

(Report of Sanitary Inspector under Art. 19 Sanitary Officers Order, 1926).

Total number of inspections made	for

4. Schools.

There are two schools in the district:—

(1) **Infants.** Date of construction unknown. Heated by coke stoves. Certified accommodation 115. The public water supply is laid on and water closet accommodation is provided.

The following are the chief health items for the year 1942:—

Feb. 26—Children weighed and measured for Medical Inspection.

April 15—Three cases of Scabies.

May 20—Seventeen children to Dr. Brown for Immunisation

June 17—Twenty-nine children to Dr. Brown for Immunisation.

July 15—Thirteen children to Dr. Brown.

, 21—Four children to Dr. Brown.

Sept. 23—Seventeen cases of Chicken Pox; two cases of Scabies; and one case of Impetigo.

Oct. 6—Five children Immunised.

", 6—School Dentist.

,, 9—School Dentist. Seventeen cases of Chicken Pox.

,, 19-Four cases of Chicken Pox; one case of Scabies.

" 20—Eighty children weighed and measured.

,, 22—Fifty-two children medically inspected by Dr. Bury. Three cases of Scabies.

,, 30—Two children sent home with Scabies and Impetigo.

Dec. 11—Nineteen cases of Measles; Seven Influenza Colds.

,, 16—Eight cases of Measles.

,, 18—One case of Measles.

,, 21—Three cases of Measles.

,, ---Schools close for Christmas holidays.

(2) **Senior School.** Built 1854. Heated by coal fires and coke stoves. Certified accommodation 231. Public water supply laid on. Water closet accommodation provided.

Health items for the year .-

Feb. 13—School Nurse inspected children.

Mar. 13 to 20—School Doctor inspected children.

April 15—School Nurse inspected children.

May 8—School Nurse inspected children.

June 10-Lecture, "Hygiene of Food and Drink."

Sept. 29—Immunisation of 25 children.

,, 30—School Nurse inspected children.

,, 30—School Dentist.

Oct. 20—School Doctor inspected children.

,, 27—Immunisation—second time.

Dec. 21—School Nurse inspected children.

SECTION D

HOUSING.

From the beginning of 1939 the improvement of housing conditions progressed normally until the outbreak of war. Since then activities in this direction have had to be much curtailed.

At the termination of the war a report on housing will be issued to cover the whole period from January 1st, 1939, to the end of the last complete year.

SECTION E

INSPECTION AND SUPERVISION OF FOOD.

(a) Milk.

The supervision of milk and dairies is now undertaken by the Ministry of Agriculture, and statistics are available only for the West Riding as a whole.

(b) Meat and other Foods.

The report of the meat inspector is as follows:—

Veterinary Infirmary, Newcastle Street, Worksop.

July 31st, 1943.

Dear Sir,

It is my pleasure to report on the inspections of meat and other foods at Tickhill during the year January 1st to December 31st, 1942.

A satisfactory position I think exists. Supplies of meat both English and Foreign have been quite well maintained, and the condition on delivery has shown a steady improvement.

Except during one spell of unfavourable weather, very little has been condemned as unfit for food.

A number of blown tins of meat and fruit has been rejected, as have a few crates of eggs which were unwholesome and unsaleable.

Shops and Refrigerating Plants have been kept in a clean and satisfactory condition, and under war-time conditions, one is fully justified in being satisfied with all food supplies.

Yours faithfully,

T. BOWETT, M.R.C.V.S.

(c) Adulteration, etc.

The Acts governing the adulteration of food are administered by the West Riding County Council. The area is served by a District Sampling Officer stationed at Rotherham.

No report of any action has been received.

(d) Chemical and Bacteriological Examination of Food.

This work is carried out by the West Riding Analyst in his laboratories at Hustlergate, Bradford.

(e) Nutrition.

There has been no dissemination of knowledge on this subject by the Local Authority.

(f) Shell-fish.

There are no shell-fish beds in the district.

SECTION F

PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

1. Notifiable diseases (other than tuberculosis) during the year 1942:—

DISEASE	Notified 1942	Sent to Hospital	Died
Enteric Fever	0	0	0
Scarlet Fever	2 .	1	0
Whooping Cough	0	0	0
Diphtheria	0	0	0
Erysipelas	2	0	0
Small Pox	0,	0	0
Measles	59	0	0
Pneumonia	7	. 0	0
Puerperal Pyrexia	0	0	0
Ophthalmia Neonatoria	1	0	0
Total	71	1	0

2. (a) Vaccination.

The following table gives the number of vaccinations performed during the year:—

Primary		Re-vaccinations	Immune		
Under 1	Over 1	. '			
17	0	4	2		

(b) Diphtheria Immunisation.

Number of children immunised during 1942:-

School age 92 Under five 34 Total 126

Altogether approximately 80% of children of school age, and 35% of children under five have now been immunised against diphtheria.

3. (a) Cancer.

There were two deaths during the year:—

AGE	SEX	ORGAN INVOLVED
65	F	Breast
53	M	Cervical Glands

(b) Prevention of Blindness.

No action necessary under Section 66 of the Public Health Act, 1925, which deals with the prevention of blindness and the treatment of persons suffering from any disease or injury to the eyes.

CASES							
Notified	Trea	ated	Vision unimpaired	Vision impaired	Tota1 Blindness	Deaths	
Notified	At Home	In Hospital					
1	1	0	0	0	0	0	

(c) Tuberculosis.

Public Health (Prevention of Tuberculosis Regulations, 1925).

No action has been taken under these regulations, which relate to the employment in the milk trade of persons suffering from tuberculosis.

Public Health Act, 1925, Section 62.

No action was taken under this Act, which relates to the compulsory removal of tubercular patients to hospital.

New Cases and Mortality during 1942
